APA style - Wikipedia

APA Style is a writing style and format for academic documents such as scholarly journal articles and books. It is commonly used for citing sources within the field of behavioral and social sciences. It is described in the style guide of the American Psychological Association (APA), which is titled the Publication Manual of the American Psychological Association.

What is the APA Citation Style? The APA citation style (6th Edition) is a parenthetical author-date style, so you need to put the author's last name and the publishing date into parentheses wherever another source is used in the narrative. The APA format consists of in-text citations and a reference list, along with guidelines for formatting the paper itself.
