Some natural capital assets provide people with free goods and services, often called ecosystem services. Two of these (clean water and fertile soil) underpin our economy and society and make human life possible. **Ecosystem - Wikipedia** An ecosystem is a community of living organisms in conjunction with the nonliving components of their environment, interacting as a system. These biotic and abiotic components are linked together through nutrient cycles and energy flows. Energy enters the system through photosynthesis and is incorporated into plant tissue. By feeding on plants and on one-another, animals play an important role ... **Porta Communications :: Porta News** Dafydd has thirty years of frontline news management experience at the BBC, Sky and Bloomberg in the worlds of business and finance.
